

UPS WorldShip Setup

Wemalo supports the export of shipping data for UPS Worldship as an XML file. The following data is required for this:

- UPS Client Number
- product (in WorldShip BillingOption, e.g. PP)
- Method (in Worldship ServiceType, for example, ST)
- Duties and taxes to be borne by
- Transport at the expense of

Sample export of an XML file:

```
<?xml version="1.0" encoding="UTF-8"?>
<OpenShipments xmlns="x-schema:OpenShipments.xdr">
  <OpenShipment ProcessStatus="" ShipmentOption="">
    <ShipTo>
      <CompanyOrName>Test-Spediteur</CompanyOrName>
      <Attention>Test Z.2</Attention>
      <Address1>TestStr. 10-13</Address1>
      <Address2>1st floor right</Address2>
      <CountryTerritory>DE</CountryTerritory>
      <CityOrTown>Wiesbaden</CityOrTown>
      <Telephone>0049-123456789</Telephone>
      <StateProvinceCounty/>
      <PostalCode>11111</PostalCode>
    </ShipTo>
    <ShipFrom>
      <CompanyOrName>Johannes Neumann</CompanyOrName>
      <Attention>-</Attention>
      <Address1>Dr.-Raber-Str. 4</Address1>
      <CountryTerritory>DE</CountryTerritory>
      <CityOrTown>Hagenow</CityOrTown>
      <Telephone>0</Telephone>
      <PostalCode>19230</PostalCode>
    </ShipFrom>
    <ShipmentInformation>
      <ShipperNumber>test1234</ShipperNumber>
